

Confirmation

referring to Regulation (EC) No. 1935/2004 of 27 October 2004
on materials and articles intended to come into contact with food.

KIESELMANN GmbH
Paul-Kieselmann-Straße 4-10
D-75438 Knittlingen

We confirm that the materials used for our products and are intended to be brought into contact with food, comply with the general requirements of the Regulation (EC) No. 1935/2004 of 27 October 2004.

The following materials may get into contact with food:

Groups of materials and articles	Material designation	Remarks
Rubbers	EPDM - Ethylene-propylene-dien rubber FKM - Fluoride rubber HNBR - Hydr. Acrylnitrile-butadiene rubber NBR - Acrylnitrile-butadiene rubber VMQ - Vinyl-methyl rubber	There are no specific measures defined for this group of materials according to article 5. The verification of suitability will be proved by the respective certification/data sheets of the material producer.
Metals and alloys	1.4301 - X5CrNi18-10 1.4305 - X8CrNiS18-9 1.4307 - X2CrNi 18-9 1.4404 - X2CrNiMo17-12-2 1.4435 - X2CrNiMo 18-14-3 1.4462 - X2CrNiMoN22-5-3 1.4539 - X1NiCrMoCu25-20-5 1.4542 - X5CrNiCuNb16-4	There are no specific measures defined for this group of materials according to article 5. The usage of metals and alloys refers to the appropriate standards for the food as well as the current EHEDG guidelines.
Plastics	PTFE Compounds	The verification of suitability will be proved by the respective certification/data sheets of the material producer.
