Inline

Inline housing for measuring and process equipment

The KIESELMANN Inline programme provides the best solution for the hygienic installation of process and instrumentation equipment. The spherical shaped Inline housing with its hygienic designed clamp connections ensures excellent CIP/SIP performance at any time. Various inserts for process and instrumentation purposes are available.

The universal design of the clamp connections allows a solution based flexibility for instrumentation and guarantees the interchangeability and backfitting of various inserts.

TECHNICAL DATA

Nominal width for pipe connections:

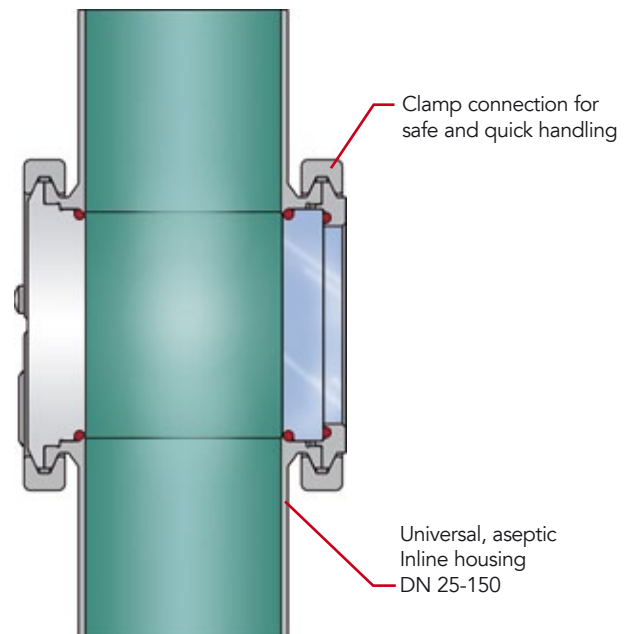

DN 25 – 150
Welding connection for pipe
DIN EN 10357 Series A
DIN 11866 Series A
Full range of connections
available

Material: 1.4404 / AISI 316L

Seal materials: EPDM (SIP 140°C, 1 h) FDA

Apparatus connections: with clamp connection

Surface Product wetted: $Ra \leq 0.8 \text{ mm}$, e-polished

KIESELMANN
FLUID PROCESS GROUP

The universal connection for all kinds of applications

Available with a number of KIESELMANN products and compatible with all leading manufacturers' instruments the KIESELMANN Inline system is specifically designed and meticulously manufactured to enable the user to stay informed without impacting product quality.

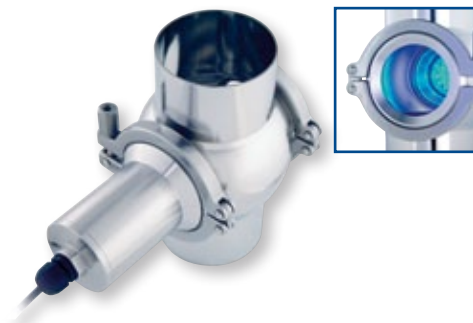

We offer the following components for the Inline-system:

- ▶ **Sight glass with blanking plate**
- ▶ **Through vision sight glass**
- ▶ **Sight glass with LED illumination unit**
 - clamp connection
 - energy-saving technology
 - illuminant service life of LED (approx. 20.000 h)
- ▶ **Inline instrumentation**
 - variable and exchangeable

Other combinations available. Please request details.
